### Job Simulation In CyberSecurity

Jan 2025

Forage (goldman Sachs), Virtual

Completed Goldman Sachs's Software Engineering job simulation on Forage. In the simulation I: 1. Completed a job simulation as a Goldman Sachs governance analyst responsible for assessing IT security and suggesting improvements. 2. Identified that the company was using an outdated password hashing algorithm by cracking passwords using Hashcat. 3. Wrote a memo for my supervisor summarizing a range of proposed uplifts to increase the company's level of password protection including extending minimum password length and using a dedicated hashing algorithm.
